🗺️ 04: USER INTERFACE COMMAND GUIDE

Navigating the DigyNex 360 Ecosystem

🌎 0. PUBLIC INTELLIGENCE GATEWAY (360 HUB)

- **The Executive Landing (`360.html`):** The starting point for all new enterprise partners.
- **"Explore" Action:** Triggers the **Executive Lead Gateway**. You must provide business credentials here to request a dedicated system seat.
- **Feature Card Interaction:** Click any Capability Card (e.g., Bulk Ingest) to launch a **Technical Deep-Dive Modal**. Use the "Launch Module" button inside any modal after lead verification to enter the production system.

🔑 1. THE MAIN DASHBOARD (Control Center)

- **Strategic Hub Tab:** This is your home screen. It shows the high-level financial health of the company (Revenue vs. Profit).
- **Financial Pulse View:** Click this to see detailed charts of operational costs and cash-flow trends.
- **AI Insights Panel:** Look here for automatically generated "Alert Cards" notifying you of anomalies or profit opportunities.

🚀 2. PROJECT NEXUS TAB (The Elite Hub)

- **Global Ecosystem Context Bar:** Manage multiple projects or organizations from a single drop-down at the top. The entire dashboard reacts to this selection.
- **Strategic Pivot Query (AI Oracle):** Located in the ROI Intelligence tab. A direct chat interface where executives can type "What-If" scenarios to shift business direction, triggering an n8n + Gemini simulation.
- **Interactive ROI Intelligence Cards:** Click on metrics like "Yield", "Growth", or "Settlement" to open deep-dive Forensic Audit Modals.
- **Forensic Audit Modal ($5k Preview):** Displays an "AI Confidence Score", an interactive "Strategic Action Imperatives" checklist, and a button to "Generate PDF Audit" replicating a premium consultancy report.
- **Executive Focus UI:** Navigation tabs (Bulk Hub, SCV Ledger) gracefully hide underneath the "Ops Toggle" to keep the executive view purely focused on billion-dollar ROI metrics.

🚚 3. TMS TAB (Operations)

- **Operations Registry:** This is your list of Students, Employees, or Products. You can add new entries or edit existing ones.
- **Identity Hub:** Click here to generate QR ID cards for your team.
- **Attendance Ledger:** View real-time logs of who is present and who is missing.
- **WhatsApp Messenger:** Trigger manual or automated alerts directly to your customers.

🌐 4. CMS TAB (Marketing)

- **Social Creator Hub:** Use this to generate AI images and write social posts.
- **Broadcast Manager:** Review your scheduled posts and click "Approve" to send them live to Facebook/LinkedIn.
- **Lead CRM Viewer:** Every person who messages your social media appears here automatically as a new lead.
