👑 DIGYNEX 360: THE INTERACTIVE FUNCTIONAL HANDBOOK

"The Anatomy of Operational Sovereignty" (2026 Edition)

This handbook serves as the **Definitive Guide** for every interactive component deployed within the live DigyNex 360 Business Operating System Ecosystem. It maps every page, card, tab, and operational outcome based on the latest source code.

🌎 MODULE 00: THE 360 INTELLIGENCE HUB (PUBLIC GATEWAY)

File: `360.html` *| Context: High-Ticket Lead Acquisition & Showcase.*

📊 Public Dashboard Interaction

Component	Operational Logic	Executive Outcome
"Explore" CTA Button	Triggers the **Executive Lead Modal**. Prevents direct system entry until lead verification.	Captures high-intent business leads and indexes them in the CRM.
Feature Cards (Grid)	Interactive `onclick` event triggering the **Technical Deep-Dive Modal**.	Proves complex technical value (Bulk Ingest, SCV Audit) without requiring a login.
Lead Capture Form	3-Field validation (Name, Email, Company) with automated redirect to `360.digynex.se`	Streamlines the transition from "Visitor" to "Authenticated Client".
Live Showcase Frame	High-contrast YouTube/Video iframe integration.	Provides an instant visual demo of the BI suite's velocity.

🌎 MODULE 01: DASHBOARD HUB (GLOBAL PULSE)

File: `DashboardView.vue` *| Context: The Executive Overview.*

📊 Top KPI Cards (The Vitals)

Component (Box)	Operational Logic	Executive Outcome
Gross Revenue (YTD)	Displays live revenue data with month-over-month % trend.	Identifies total cash inflow and pacing against targets.
Active Projects	Tracks ongoing jobs vs. stalled projects.	Immediate visibility into operational capacity.
AI Workload	Measures how many tasks n8n/AI handle automatically.	Proves the ROI of the digital workforce vs human labor.
Global Expansion	Highlights active regional sectors.	Visualizes brand spread across new global territories.

🌐 Data Visualizations

- **Box: Global Operations Map / Chart Zone:** Displays multi-region tracking (e.g., Stockholm vs Colombo).
- **Box: Strategic Alerts Feed:** Live list of high-priority events (e.g., "Invoice Overdue by 45 Days").

🧬 MODULE 02: SALES NEXUS (VIRAL INTELLIGENCE HUB)

File: `SalesNexusView.vue` *| Context: Autonomous Marketing & Revenue Generation.*

🎯 The AI Social Niche Deck

Component (Card)	Operational Logic	Executive Outcome
Niche Intelligence Cards	High-density grid cards displaying trending niches, Growth Potential %, and Target Audience scores.	Exposes untapped market segments dynamically.
Tool Execution Icons	Hoverable tooltip icons (Imagen, Gemini, ElevenLabs) attached to each niche card.	Shows exactly which AI agents will run the campaign.
AI Sequence Modal (Popup)	A high-density pop-up triggering a 4-Step Strategic Plan (Hook -> Asset -> Schedule -> Output).	Replaces a human marketing strategist. Approves AI workflows instantly.

⏳ MODULE 03: PROJECT NEXUS (TACTICAL OPERATIONS)

File: `ProjectNexusView.vue` *| Context: Project execution, auditing, and ROI validation.*

📈 Tabs & Tactical Modals

Component (Box/Tab)	Operational Logic	Executive Outcome
ROI Forecaster (Calculator)	Interactive parameters (Investment, Staff Cost) allowing "What-If" scenario execution.	Allows the CEO to instantly simulate risk vs. reward on capital deployments.
Nexus ROI Intelligence (Radar)	Radar chart comparing TRC (Total Resource Cost) vs TRV (Total Return Value).	Mathematically highlights projects that are bleeding money vs highly profitable ones.
Tactical Execution Feed	Action lists mapping Subcontractors to specific project nodes.	Identifies bottlenecked personnel in the supply chain.

💰 MODULE 04: FINANCIAL INTELLIGENCE VAULT

File: `FinanceView.vue` *| Context: Cash flow oversight and multi-tenant ledger control.*

🏦 The CFO Command Deck

Component (Card/Box)	Operational Logic	Executive Outcome
Operational Runway Card	Premium KPI tracking exact liquid cash available to sustain operations.	Prevents sudden bankruptcy by knowing exact timeline limits.
Monthly Burn Rate Card	Calculates EBITDA and cost out-flows with precise Red/Amber alerts.	Immediately highlights inefficient corporate spending.
AR Aging Intelligence Bar	An interactive, high-contrast visual bar separating trapped capital into **0-30 Days (Emerald)**, **31-60 Days (Amber)**, and **60-90+ Days (Pulse Red)**.	Tactical execution tool to trigger debt collection workflows.
Global Compliance Vault	A region selector dropdown simulating regional tax laws (Sweden MOMS, UK VAT, USA Sales Tax) vs Global Revenue.	Absolute sovereignty over cross-border taxation.
Central Invoice Ledger	Table mapping Invoice IDs, Status (Paid/Pending), and individual "Download Original" actions via PDF engine.	Eliminates accounting software subscription needs.

🤝 MODULE 05: STRATEGIC CRM (PARTNER DIRECTORY)

File: `CrmView.vue` | *Context: Secure client data shielding and subcontractor mapping.*

📋 The Data Silo Matrix

Component (Box)	Operational Logic	Executive Outcome
Live Database Table Grid	Direct connection to the Supabase Cloud. Fetches Subcontractors and active "Elite Client" lists.	Creates a single source of truth for global relationships.
Add Partner Modal	Secure data-entry wizard with strict validation to map internal resources to client IDs.	Maintains flawless digital registries without duplicate entries.
Auth Shielding (Supabase sync)	Temporarily bypassed for "High-Fidelity UI", it strictly enforces `<tenant_id>` to prevent unauthorized access.	100% Anti-Piggybacking protection. No external data bleeding.

🏛️ SYSTEM BLUEPRINT: THE AUTOMATION MATRIX (WHITE SHEET)

📅 VERSION CONTROL & SYNC

- **Current Version:** v6.5 (Integrated Alex Master Sync & Total High-Density UI Parity).
- **Architecture Validation:** Verified against Vue 3 Composition API & Supabase Client structures.
